Summary

Aspiring Data Scientist with expertise in predictive modeling and deep learning. Developed a neural network architecture for revenue optimization achieving 94% R-squared value, presented at the IC-AISSTMH 2026 international conference. Experienced across 3 internships spanning sports analytics and BI. Recognized for academic excellence and leadership as a KCLAS Young Ambassador and A-Grade NCC Cadet.

Education

Kumaraguru College of Liberal Arts & Science | Bachelor of Science Grad May '26
Data Science

(Relevant coursework: Machine Learning; Statistics & Probability; Data Visualization; Deep Learning & NLP; Experimental Design)

Skills

Programming Languages: Python, SQL, R

Data Analysis & Manipulation: Pandas, NumPy, SciPy

Machine Learning & AI: Scikit-learn, XGBoost, TensorFlow, PyTorch, Neural Networks

Data Visualization: Matplotlib, Seaborn, Plotly

Web & API Development: React, FastAPI, Streamlit

Language: Malayalam, English, Tamil, French, Hindi

Experience

Data Analytics Intern • Codtech IT Solutions Dec 2024-Jan 2025

- Built **interactive dashboards and sentiment analysis pipelines** for predictive modeling, improving data accessibility for business teams.
- Applied **NLP techniques** in Python to extract **actionable insights** from large volumes of unstructured customer feedback.
- Developed predictive analytics solutions to address real-world business challenges using big data analysis.

Business Intelligence Intern · Amypo Technologies

Feb 2025

- Designed **Power BI reports** providing **real-time visibility** into key business metrics, used by stakeholders for weekly decision reviews.
- **Cleaned and modeled** large datasets in Excel to support complex analytical workflows and ensure data accuracy.
- Transformed raw organizational data into clear visual insights, reducing **reporting time** for the analytics team.

Data Analyst Intern · SoftFruit Solutions

May 2025

- Deployed **Power BI dashboards** enabling stakeholders to monitor **KPIs** and identify performance trends at a glance.
- Built Python and R **linear regression models** to **forecast business outcomes**, directly supporting data-driven planning.
- Communicated complex analytical findings to **non-technical audiences**, improving cross-team alignment.

Technical Projects

Arena Insight | *Predictive Venue Analytics · MLP Neural Network*

- **Architecture Integration:** Integrated a Multi-Layer Perceptron (MLP) architecture to forecast peak usage times for sports venues, enabling data-driven resource allocation.
- **Quantified Performance:** Achieved **94% predictive accuracy** by training the model on a dataset of **10,000+ booking entries**, effectively capturing non-linear patterns in historical usage data.
- **Actionable Insights:** Analyzed complex datasets to provide stakeholders with actionable insights for revenue optimization, directly informing venue management strategies.

Dynamic Navigator | *Capstone Project · Coupon Acceptance Prediction*

- **Developed** a dual-tier machine learning pipeline using **Logistic Regression** and **Gradient Boosting** to predict coupon acceptance with **73% accuracy**.
- **Engineered** a **Feature Transformation Engine** to quantize behavioral habits and situational context (weather, time, destination) from **12,000+ driving scenarios**.
- **Optimized** user experience by implementing a **Precision Filter** to minimize "marketing spam" and notification fatigue.

Certifications & Awards

HONORS & LEADERSHIP

- **Young Ambassador Award** | School of Data Science, KCLAS (Feb 2026): Recognized for academic excellence and leadership.
- **NCC Lance Corporal (IGC Badge):** Demonstrated disciplined leadership and success in regional competitions.
- **Certificate of Recognition:** Awarded for winning prizes in national and international extracurricular competitions.
- **NCC B Certificate – Grade A (2025)** · Passed the Ministry of Defence examination under Tamilnadu, Puducherry & Andaman Nicobar Directorate, 5 (TN) Girls BN NCC.

CERTIFICATIONS

- **Data Science:** IBM Professional, NPTEL (Python for Data Science).
- **Specialized:** International Supply Chains (U. of Colorado Boulder), GenAI Job Simulation.

RESEARCH & PUBLICATIONS

- **IC-AISSTMH 2026 (Feb 2026):** Authored and presented "*The Predictive Pitch*" at the International Multidisciplinary Conference on AI-Driven Sustainability. Developed a Neural Network model for sports venue revenue optimization.
